General Information

Chain Lubricant Food Grade is an extra-strength lubricant for use on food processing equipment. It is NSF H1 registered (#132899) and ideal for applications involving incidental food contact. Chain Lubricant Food Grade has an oily, wet film and foaming action to provide extra penetration and lubrication. It helps extend chain life and reduces wear caused by friction. Chain Lubricant Food Grade contains no silicone or chlorinated solvents and is safe to use on metal and most plastic surfaces. Chain Lubricant Food Grade has an extension tube for spraying into blind holes.

Material Safety Data Sheets are available upon request.
